

Declaration of consent

In order to provide the described services, we, the Economic Service of the Odenwald-Regional-Gesellschaft mbH (OREG), need access to your submitted documents at the Administration of the Odenwald District. This requires your prior explicit consent.

In order to grant us access to all relevant documents, please fill in the following blanks:

Project title

Company name

Address

Zip code City

Local subdistrict Land parcel Nr.

You can withdraw your consent at the Administration of the Odenwald District at any time. Informal withdrawals of consent are accepted.

Place/Date Company seal/Signature

Administrative support for your construction projects

The fast-track to your success!

The free administrative support for
your commercial construction projects

A cooperation between
the Administration of the
Odenwald District and the
OREG Economic Service.

A crucial location factor

Our comprehensive fiber-optic network is an invaluable asset for the companies of the Odenwald District. Currently, our network is being extended, making it possible to even reach Gigabit-speed and to obtain fiber to the home (FTTH). So, no matter what your specific requirements in this field might be, together with our network provider, Entega Medianet GmbH, we'll find the perfect solution for you.

Laying of a fiber-optic cable in Michelstadt.

Our special service for you

Whether you're planning the enlargement or adjustment of existing premises or the construction on green land, you'll always be confronted with specific applications and regulations for construction and usage. As this is not an entrepreneur's daily business, only few businessmen are experts in this field. The good news here is: You don't have to be one!

We, the Economic Service of the Odenwald-Regional-Gesellschaft mbH (OREG), will guide you through the construction project. The sooner you get in touch with us, the better we can support you.

First, we evaluate together with you your construction project. Here, relevant departments of the Odenwald District's Administration are already involved. Thus, we can give you a fast answer on whether your construction plans can be realized or might be adjusted.

And, in case your construction project might be impossible or too hard to realize, we can provide you with attractive alternatives.
